

```
select count(1)           -- aggregation
from Edge as A            -- table join
  inner join Edge as B on A.dst = B.src
  inner join Edge as C on B.src = C.dst
where A.src < B.src        -- filtering
   and B.src < C.src
   and A.src = C.dst
```
